

Innovator in Electronics

Many people are unaware of Murata's electronic components.
However, Murata components are used by almost all of us.
Computers, mobile phones, home appliances, car electronics...
Inside our electronic equipment, which continues to evolve dramatically,
becoming ever smaller with more advanced functions,
Murata components are hard at work.

Innovator in Electronics

Electronic components keep on changing.
Murata wants to keep on changing, too.
We work to stay in step with the trends of the times,
keeping our focus on the customer,
carrying out our manufacturing with pride,
continually seeking out new challenges,
and striving to always remain
the tireless innovator that we are.
Under a philosophy that is unchanging,
we continue to make bold changes.
In any and every age,
Murata will always be an innovator.
