Notes to Consolidated Financial Statements

Murata Manufacturing Co., Ltd. and Subsidiaries

1. Summary of Significant Accounting Policies

(a) Nature of operations

Murata Manufacturing Co., Ltd. (the "Company") and subsidiaries (together the "Companies") are engaged in the development, manufacture, and sale of electronic components (Components and Modules) in numerous countries, with Japan, North America, certain other Asian, and European countries as its primary markets. Components consist of Capacitors, Piezoelectric Components, and Other Components. Modules consist of Communication Modules, Power Supplies, and Other Modules. The Companies' products are sold mainly to electronics companies for use as components in telecommunication, computer, audio, video, automotive electronics, and other electronic products.

(b) Basis of financial statements

The consolidated financial statements, stated in Japanese yen, reflect certain adjustments, not recorded on the books of account, to present these statements in accordance with accounting principles generally accepted in the United States.

The Companies adopt Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 105, "Generally Accepted Accounting Principles" in the United States of America.

The principal adjustments to amounts recorded in the Companies' books of account include the measurement of net periodic cost for defined benefit retirement plans, the accrual of compensated absences, accounting for derivatives, and the provision for deferred income taxes relating to these adjustments.

(c) Principles of consolidation

The consolidated financial statements include the accounts of the Company and its majority-owned subsidiaries. All significant intercompany items have been eliminated in consolidation. Investments in 20% to 50% owned companies are accounted for by the equity method.

(d) Short-term investments, cash and cash equivalents

Short-term investments include time deposits which may be withdrawn on demand without diminution of principal, and commercial paper which is a highly-liquid investment.

The Companies consider cash and short-term investments with original maturities of 3 months or less as cash and cash equivalents.

(e) Marketable securities and investments

Under ASC 320, "Investment - Debt and Equity Securities," the Companies classify all debt securities and marketable equity securities as available-for-sale and carry them at fair value with a corresponding recognition of the net unrealized holding gain or loss (net of tax) as a separate component of shareholders' equity. Gains and losses on sales of investments are computed on an average cost basis. Equity securities that do not have a readily determinable fair value are recorded at average cost (see Note 3). The Companies review the fair value of their marketable securities and investments on a regular basis to determine if the fair value of any individual investment has declined below its cost and amortized cost and if such decline is other-than-temporary. A determination of whether a decline in fair value represents an other-than-temporary impairment is based on criteria that include the extent to which the securities' carrying value exceeds its fair value, the duration of the market decline, and the Companies' requirement and intent to sell the investment. Losses from other-than-temporary impairments, if any, are charged to income as incurred.

(f) Inventories

Inventories are stated at the lower of cost, which is determined principally by the average cost method, or market.

(g) Property, plant and equipment

Property, plant and equipment is stated at cost. Depreciation of property, plant and equipment has been principally computed using the declining-balance method (straight-line method for certain overseas subsidiaries) based upon the estimated useful lives of the assets. The range of useful lives is principally from 10 to 50 years for buildings and from 4 to 8 years for machinery and equipment.

(h) Termination and retirement benefits

Termination and retirement benefits are accounted for in accordance with ASC 715, "Compensation-Retirement Benefits".

(i) Revenue recognition

The Companies recognize revenue when persuasive evidence of an arrangement including title transfer exists, delivery has occurred, the sales price to the customer is fixed or determinable, and collectability is reasonably assured.

(j) Advertising expenses

Advertising costs are expensed as incurred. Advertising expenses for the years ended March 31, 2013, 2012, and 2011 were ¥2,733 million (\$29,074 thousand), ¥2,339 million, and ¥2,234 million, respectively.

(k) Taxes on income

The Companies follow the provisions of ASC 740, "Income Taxes" to account for income taxes. Under ASC 740, deferred tax assets and liabilities are computed based on the differences between the financial statement and the income tax bases of assets and liabilities using the enacted tax rates. Deferred income tax expenses and credits are based on the change in the deferred tax assets and liabilities from period to period. A valuation allowance is established, when necessary, to reduce deferred tax assets to the amounts expected to be realized. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the period that includes the enactment date.

Regarding undistributed earnings of subsidiaries, the Companies recognize deferred tax liabilities for the taxable portion of future dividends receivable under the current tax system. The Companies recognize no deferred tax liability for the non-taxable portion because of the tax system which treats almost all dividends receivable the Company received from subsidiaries as non-taxable for tax calculation.

The Companies account for uncertainty in income taxes in accordance with ASC 740. ASC 740 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return.

(I) Earnings per share

The Companies account for earnings per share in accordance with ASC 260, "Earnings Per Share". Diluted earnings per share reflects the potential dilution from potential shares outstanding such as shares issuable upon the exercise of stock options. A reconciliation of the numerator and denominator of the basic and diluted earnings per share computation is included in Note 11.

(m) Fair value measurements

The Companies account for fair value measurements in accordance with ASC 820, "Fair Value Measurement". ASC 820 clarifies the definitions of fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements.

(n) Derivatives

The Companies account for their derivative instruments and hedging activities in accordance with ASC 815, "Derivatives and Hedging". These standards establish accounting and reporting standards for derivative instruments and for hedging activities, and require that an entity recognize all derivatives as either assets or liabilities in the balance sheet and measure those instruments at fair value.

The Companies have forward exchange contracts and commodity swap contracts as derivatives. On the date the derivative contract is entered into, the Companies designate the derivative as a hedge of forecasted foreign currency and material procurement cash flows. The Companies formally document all relationships between hedging instruments and hedged items, as well as their risk management objective and strategy for undertaking various hedge transactions. This process includes linking all derivatives that are designated as foreign currency cash flow hedges to specific assets and liabilities in the consolidated balance sheets or to specific forecasted transactions.

Regarding forward exchange contracts, the Companies consider all hedges to be highly effective in offsetting changes in cash flows of hedged items, because the currencies and terms of them correspond to those of hedged items.

Regarding commodity swap contracts, the Companies consider the hedges to be highly effective in expecting to offset changes in cash flows of hedged items, because the changes of raw material market prices that compose material purchase prices correspond to those of hedged items.

Changes in fair value of a derivative that is highly effective and that is designated and qualifies as a foreign currency and material procurement cash flow hedge are recorded in other comprehensive income (loss,) until earnings are affected by the variability in cash flows of the designated hedged item.

(o) Shipping and handling costs

Shipping and handling costs which are included in selling, general and administrative expenses for the years ended March 31, 2013, 2012, and 2011 were ¥6,739 million (\$71,691 thousand,) ¥5,296 million, and ¥5,280 million, respectively.

(p) Consideration given by a vendor to a customer

The Companies account for consideration given to a customer as a reduction of revenue in accordance with ASC 605-50, "Customer Payments and Incentives". ASC 605-50 defines the income statement classification of consideration given by a vendor to a customer or reseller of the vendor's products.

(q) Impairment or disposal of long-lived assets

The Companies account for impairment or disposal of long-lived assets and discontinued operations in accordance with ASC 360, "Property, plant, and equipment". This statement applies to all long-lived assets. The Companies' long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to the estimated undiscounted future cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount exceeds the fair value of the assets. If the Companies determine to dispose of assets, depreciation estimates for the assets shall be revised to reflect those remaining useful lives. Assets classified as held for sale shall be measured at the lower of its carrying amount or fair value less cost to sell.

(r) Acquisition

The Companies account for acquisition in accordance with ASC 805, "Business Combinations". In accordance with this statement, the Companies measure the identifiable assets including intangible assets and the liabilities assumed at their acquisition-date fair values by the acquisition method. The Companies recognize goodwill as of the acquisition date, measured as the excess of the total acquisition price over the net identifiable assets acquired. Acquisition-related costs accounted for as expenses in the periods in which the costs are incurred and the services are received.

(s) Goodwill and other intangible assets

The Companies account for goodwill and other intangible assets in accordance with ASC 350, "Intangibles - Goodwill and Other". In accordance with this statement, goodwill is not amortized and is instead tested at least annually for impairment. Intangible assets that have finite useful lives will continue to be amortized over their useful lives.

This statement also requires that an intangible asset that is determined to have an indefinite useful life is not amortized but is instead tested at least annually for impairment until its useful life is determined to be no longer indefinite.

(t) Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. Translation of Japanese Yen Amounts into U.S. Dollar Amounts

The consolidated financial statements are stated in Japanese yen, the currency of the country in which the Company is incorporated and operates. The translations of Japanese yen amounts into U.S. dollar amounts are included solely for convenience of readers outside of Japan and have been made at the rate of ¥94 to \$1, the approximate rate of exchange at March 31, 2013. Such translations should not be construed as representations that the Japanese yen amounts could be converted into U.S. dollars at the above or any other rate.

3. Marketable Securities and Investments

The cost and amortized cost, gross unrealized gains, gross unrealized losses, and fair value for available-for-sale securities by major security type, at March 31, 2013 and 2012 are as follows:

		Millions	of yen

Equity securities	91,862	64,138	64	155,936
Investment trusts		_	_	-

The fair value and gross unrealized losses for available-for-sale securities by major security type and length of time that individual securities have been in a continuous unrealized loss position, at March 31, 2013 and 2012 are as follows:

		Millions	of yen	
		20	13	
	Less than	Less than 12 months		s or longer
	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses
Private debt securities Equity securities Total	¥21,828 194	¥78 6_	¥30,385	¥318

		Millions	of yen	
		20	12	
	Less than	12 months	12 months	s or longer
	Fair	Gross Unrealized	Fair	Gross Unrealized
	Value	Losses	Value	Losses
Private debt securities Equity securities	¥68,676 1,492	¥1,087 255	¥38,306 -	¥523
Total	¥70,168	¥1,342	¥38,306	¥523
		Thousands o	f U.S. dollars	
		20	13	
	Less than	12 months	12 months	or longer
	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses
Private debt securities	\$232,213 2,064 \$234,277	\$830 64 \$894	\$323,245 \$323,245	\$3,383 \$3,383

The Companies do not recognize other-than-temporary impairment loss on above debt securities which have a fair value below amortized cost as of March 31, 2013, (1) as the Companies do not intend to and (2) more likely than not will not be required to sell such securities before the recovery of amortized cost and (3) as the issuers of the securities have favorable credit ratings.

The aggregate carrying amounts of equity securities at March 31, 2013 and 2012, which are valued at cost, are ¥2,093 million (\$22,266 thousand) and ¥1,591 million, respectively.

Of these, at March 31, 2013 and 2012, equity securities of ¥2,093 million (\$22,266 thousand) and ¥1,578 million, respectively, are not evaluated for impairment because (a) the Companies do not identify any events or changes in circumstances that might have a significant adverse effect on the fair value of the securities and (b) the Companies determine that it is not practicable to estimate the fair value of the securities.

Contractual maturities of debt securities (Governmental and private debt securities) as of March 31, 2013 are as follows:

	Millions of yen			ands of dollars
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Within 1 year	¥ 60,401	¥ 60,752	\$ 642,564	\$ 646,298
5 years	139,497 –	141,107 -	1,484,010 -	1,501,138 -
Total	¥199,898	¥201,859	\$2,126,574	\$2,147,436

Information related to sales of available-for-sale securities is as follows:

		Millions of yen		Thousands of U.S. dollars
	2013	2012	2011	2013
Proceeds from sales	¥1,634	¥2	¥6	¥17,383
Gross realized gains	34	1	2	362
Gross realized losses				

4. Investments in Affiliates

Investments in affiliates accounted for by the equity method consist of 31.9% and 31.9% of the common stock of Tokyo Denpa Co., Ltd. (the "TEW") at March 31, 2013 and 2012.

The carrying amount and the value based on quoted market prices of investments in common stock of the TEW for which a quoted market price is available at March 31, 2013 and 2012 are ¥2,225 million (\$23,670 thousand), ¥2,070 million and ¥2,067 million (\$21,989 thousand), ¥1,290 million, respectively. The difference between the carrying amount of investments in affiliates and Company's equity in the net assets of such affiliated company is insignificant at March 31, 2013 and 2012.

5. Inventories

Inventories at March 31, 2013 and 2012 consist of the following:

			Thousands of
	Millions	of yen	U.S. dollars
	2013	2012	2013
Finished products	¥ 73,542	¥ 60,049	\$ 782,362

Materials and supplies	39,017	34,396	415,074
Total	¥160,934	¥132,037	\$1,712,064

6. Short-Term Borrowings and Long-Term Debt

Short-Term Borrowings at March 31, 2013 and 2012 consist of the following:

	Millions of yen	Weighted-Average Interest Rate	Millions of yen	Weighted-Average Interest Rate	Thousands of U.S. dollars
•	2013		20	012	2013
Bank loans	¥47,061	0.6%	¥30,392	0.4%	\$500,649

Long-term debt at March 31, 2013 and 2012 consist of the following:

	Millions of yen	Weighted-Average Interest Rate	Millions of yen	Weighted-Average Interest Rate	Thousands of U.S. dollars
-	20	013	20)12	2013
Unsecured bank loans,					
due 2019	¥8,542	0.8%	¥6,801	0.9%	\$90,872
Other	3	3.6	3	3.6	32
Total	8,545	0.8	6,804	0.9	90,904
Less: Portion due					
within one year	(1,102)	8.0	(O)	3.8	(11,723)
Total	¥7,443	0.8%	¥6,804	0.9%	\$79,181

The aggregate future maturities of long-term debt outstanding at March 31, 2013 are as follows:

		Thousands of
Years ending March 31	Millions of yen	U.S. dollars
2014	¥1,102	\$11,723
2015	2,180	23,192
2016	1,648	17,532
2017	2,208	23,489
2018	936	9,957
2019 and thereafter	471	5,011
Total	¥8,545	\$90,904

7. Termination and Retirement Benefits

The Companies sponsor termination and retirement benefit plans which cover most employees. Benefits are primarily based on the employee's position and assessment of performance or the employee's years of service, with some plans also considering compensation and other factors. If the termination is involuntary or caused by death, the employee or their beneficiary is usually entitled to greater payments than in the case of voluntary termination.

The Companies fund a portion of the obligation under these plans. The general funding policy is to contribute amounts computed in accordance with accepted actuarial methods.

The Companies have several termination and retirement plans, some partially funded and administered by independent trustees, others unfunded and administered by the Companies. These plans usually provide lump sum termination and retirement benefits and are paid at the earlier of the employee's termination or the mandatory retirement age although periodic payments are available under certain conditions.

The following table summarizes the financial status of the termination and retirement plans and the amounts recognized in the financial statements at March 31:

	Millions	of ven	Thousands of U.S. dollars
	2013	2012	2013
Change in benefit obligation:			
Benefit obligation at beginning of year	¥128,898	¥112,169	\$1,371,255
Service cost	7,107	6,841	75,606
Interest cost	2,248	2,289	23,915
Actuarial loss	5,181	6,217	55,118
Benefits paid	(1,612)	(1,563)	(17,149)
Settlement paid	(2,104)	(1,797)	(22,383)
Acquisition of business		4,742	
Benefit obligation at end of year	139,718_	128,898	1,486,362
Change in plan accets			
Change in plan assets: Fair value of plan assets at beginning of year	67,472	59,556	717,787
Actual return on plan assets	7,403	1.006	78,756

Benefits paid	(1,612)	(1,563)	(17,149)
Settlement paid	(608)	(301)	(6,468)
Acquisition of business	-	3,208	(0,100)
Fair value of plan assets at end of year	77,313	67,472	822,479
Funded status at end of year	¥ (62,405)	¥ (61,426)	\$ (663,883)
Amounts recognized in the consolidated balance sheet consist of:			
Long-term receivables, advances and other	¥ 1,810	¥ 1,433	\$ 19,255
Accrued expenses and other	(653)	(556)	(6,947)
Termination and retirement benefits	(63,562)	(62,303)	(676,191)
Net amount recognized	¥ (62,405)	¥ (61,426)	\$ (663,883)
Accumulated benefit obligation at end of year	¥134,141	¥123,530	\$1,427,032

Accumulated benefit obligations for all of the Companies' termination and retirement plans are in excess of their plan assets at March 31, 2013 and 2012.

Amounts recognized in accumulated other comprehensive loss (income) at March 31, 2013 and 2012 consist of the following:

			Thousands of
	Millions	of yen	U.S. dollars
	2013	2012	2013
Actuarial loss	¥22,249	¥25,604	\$236,691
Prior service benefit	(15,733)	(17,953)	(167,372)
Pension liability adjustments, before tax	¥ 6,516	¥ 7,651	\$ 69,319

Net periodic benefit cost for the years ended March 31:

				Thousands of
		Millions of yen		U.S. dollars
	2013	2012	2011	2013
Service cost	¥7,107	¥6,841	¥6,148	\$75,606
Interest cost	2,248	2,289	2,207	23,915
Expected return on				
plan assets	(1,674)	(1,477)	(1,464)	(17,809)
Amortization of prior				
service benefit	(2,224)	(2,227)	(2,224)	(23,660)
Recognized actuarial loss	2,727	2,099	1,574	29,012
Net periodic benefit cost	¥8,184	¥7,525	¥6,241	\$87,064

Other amounts recognized in other comprehensive loss (income) for the years ended March 31:

			Thousands of
	Millions	of yen	U.S. dollars
	2013	2012	2013
Actuarial loss	¥ (632)	¥6,764	\$ (6,723)
Amortization of prior service benefit	2,224	2,227	23,660
Recognized actuarial loss	(2,727)	(2,099)	(29,011)
Total recognized in other			
comprehensive loss (income), before tax	¥(1,135)	¥6,892	\$(12,074)

The estimated prior service benefit and net loss for the termination and retirement benefit plans that will be amortized from accumulated other comprehensive income (loss) into net periodic benefit cost over the next fiscal year are a gain of ¥2,224 million (\$23,660 thousand) and a loss of ¥1,943 million (\$20,670 thousand), respectively.

Termination and retirement benefits, accounted for in accordance with ASC 715, "Compensation-Retirement Benefits" are provided at the amount incurred during the period, which is based on the estimated present value of the projected benefit obligation less the fair value of plan assets at the end of the period. The overfunded or underfunded status of a defined benefit postretirement plan is recognized as an asset or liability in its statement of financial position, with an adjustment to accumulated other comprehensive income (loss).

The unrecognized prior service benefit due to certain plan amendments is being amortized on a straight-line basis over the average remaining service period of employees. The unrecognized actuarial gains and losses in excess of 10% of the larger of the projected benefit obligation or plan assets are being amortized over 5 years.

The following assumptions are utilized to calculate the actuarial present value of the benefit obligation as of March 31:

	2013	2012
Discount rate	1.6%	1.8%

The following assumptions are utilized to calculate net periodic benefit cost for the years ended March 31:

	2013	2012	2011
Discount rate	1.8%	2.1%	2.2%
return on plan assets	2.5%	2.5%	2.5%

The Companies determine the discount rate based on a risk-free rate estimated considering the long-term rate of return on Japanese government bonds and the rate of returns on other high-quality fixed-income investments. The Companies determine the expected long-term rate of return on plan assets, based on the historical performance of various invested asset categories, as well as the long-term rate of return on Japanese government bonds.

Compensation increase rate is not used in the calculation of benefit obligation and net periodic benefit cost under the point system.

Plan assets are invested for the purpose of achieving a sufficient rate of return to maintain pension plan assets for future payment of benefits to plan participants. Considering the expected rate of return on invested assets, a related standard deviation, and a related correlation coefficient, the Companies believe the current asset allocation is adequate for purposes of meeting investment objectives. For achieving the expected rate of return on plan assets on a midterm to long-term basis, the Companies select optimal investing institutions by invested asset category and entrust the investment of plan assets to them. The Companies revise the asset allocation when and to the extent considered necessary. The asset allocation of the Company's plan assets which account for most of plan assets at March 31, 2013 consists of 25% of equity securities, 63% of debt securities and life insurance company general accounts, and 12% of other.

The 3 broad levels of input used to measure fair value are more fully described in Note 15. The fair values of the Companies' plan assets at March 31, 2013 are as follows:

		Millions	of yen

Stocks

Stocks contain marketable equity securities and nonmarketable equity securities. Marketable equity securities are measured by the market approach using quoted prices in active markets; they are classified within Level 1. At March 31, 2013 and 2012, this class consists of 100% Japanese stocks. Stocks include no common stock of the Company at March 31, 2013, and include it in the amounts of ¥15 million (0.02% of total plan assets) at March 31, 2013.

Governmental debt securities

Governmental debt securities contain government bonds and local government bonds. Government bonds are measured by the market approach using quoted prices in active markets; they are classified within Level 1. Local government bonds are measured by the market approach using quoted prices for identical or similar assets in markets that are not active; they are classified within Level 2. At March 31, 2013, this class consists of 58% Japanese governmental debt securities and 42% foreign governmental debt securities. At March 31, 2012, this class consists of 61% Japanese governmental debt securities and 39% foreign governmental debt securities.

Private debt securities

Private debt securities are measured by the market approach using quoted prices for identical or similar assets in markets that are not active; they are classified within Level 2. At March 31, 2013, this class consists of 100% foreign private debt securities. At March 31, 2012, this class consists of 100% foreign private debt securities.

Pooled funds

Pooled funds are measured to distribute the fair values of pooled fund assets by units of shares. Pooled funds (equity securities) mainly contain marketable equity securities. Pooled funds (equity securities) are measured by the market approach using inputs other than quoted prices that are observable for the assets; they are classified within Level 2. At March 31, 2013, this class consists of 33% Japanese pooled funds (equity securities) and 67% foreign pooled funds (equity securities). At March 31, 2012, this class consists of 32% Japanese pooled funds (equity securities) and 68% foreign pooled funds (equity securities).

Pooled funds (debt securities) mainly contain government bonds and local government bonds. Pooled funds (debt securities) are measured by the market approach using inputs other than quoted prices that are observable for the assets; they are classified within Level 2. At March 31, 2013, this class consists of 41% Japanese pooled funds (debt securities) and 59% foreign pooled funds (debt securities). At March 31, 2012, this class consists of 42% Japanese pooled funds (debt securities) and 58% foreign pooled funds (debt securities).

Pooled funds (other) are measured by the income approach using inputs that are not unobservable for the assets; they are classified within Level 3.

Life insurance company general accounts

Life insurance company general accounts are investments in general accounts of life insurance companies. Life insurance company general accounts guarantee principal and certain rates of return, and they are measured by the market approach using inputs other than quoted prices that are observable for the assets; they are classified within Level 2.

The Companies expect to contribute ¥5,044 million (\$53,660 thousand) to their defined benefit plans in the year ended March 31, 2013.

The future benefit payments are expected as follows:

Vegra anding March 21	Milliana of van	Thousands of U.S. dollars
Years ending March 31	Millions of yen	U.S. dollars
2014	¥ 2,998	\$ 31,894
2015	3,697	39,330
2016	3,920	41,702
2017	3,901	41,500
2018	3,984	42,383
2019-2023	25,129	267,330

8. Shareholders' Equity

Japanese companies are subject to the Companies Act of Japan (the "Companies Act"). The significant provisions in the Companies Act that affect financial and accounting matters are summarized below;

(a) Dividends

Under the Corporate Law, companies can pay dividends at any time during the fiscal year in addition to the year-end dividend upon resolution at the shareholders' meeting, if companies meet certain criteria such as; (1) having the Board of Directors, (2) having independent auditors, (3) having Audit & Supervisory Board, and (4) the term of service of the directors is prescribed as 1 year rather than 2 years of normal term by its articles of incorporation. The Board of Directors of such company may declare dividends (except for dividends in kind) at any time during the fiscal year if the company has prescribed so in its articles of incorporation.

The Corporate Law permits companies to distribute dividends in kind (non-cash assets) to shareholders subject to a certain limitation and additional requirements.

Semiannual interim dividends may also be paid once a year upon resolution by the Board of Directors if the articles of incorporation of the company so stipulate. The Corporate Law provides certain limitations on the amounts available for dividends or the purchase of treasury stock. The limitation is defined as the amount available for distribution to the shareholders, but the amount of net assets after dividends must be maintained at no less than ¥3 million.

The amount available for dividends under the Corporate Law is ¥208,212 million (\$2,215,021 thousand) as of March 31, 2013, based on the amount recorded in the parent company's general books of account.

(b) Increases / decreases and transfer of common stock, reserve and surplus

The Corporate Law requires that an amount equal to 10% of dividends must be appropriated as a legal reserve (a component of retained earnings) or as additional paid-in capital (a component of capital surplus) depending on the equity account charged upon the payment of such dividends until the total of aggregate amount of legal reserve and additional paid-in capital equals 25% of the common stock. Under the Corporate Law, the total amount of additional paid-in capital and legal reserve may be reversed without limitation of such threshold. The Corporate Law also provides that common stock, legal reserve, additional paid-in capital, other capital surplus, and retained earnings can be transferred among the accounts under certain conditions upon resolution of the shareholders.

(c) Treasury stock and treasury stock acquisition rights

The Corporate Law also provides for companies to purchase treasury stock and dispose of such treasury stock by resolution of the Board of Directors. The amount of treasury stock purchased cannot exceed the amount available for distribution to the shareholders which is determined by specific formula.

Under the Corporate Law, stock acquisition rights, which were previously presented as a liability, are now presented as a separate component of equity.

The Corporate Law also provides that companies can purchase both treasury stock acquisition rights and treasury stock. Such treasury stock acquisition rights are presented as a separate component of equity or deducted directly from stock acquisition rights.

9. Income Taxes

The effective income tax rates of the Company and subsidiaries differ from the normal Japanese statutory rates as follows for the years ended March 31:

	2013	2012	2011
Normal Japanese statutory rates	37.8%	40.4%	40.4%
Increase (decrease) in taxes resulting from:			
Tax credits	(8.2)	(5.8)	(4.9)
Permanently non-deductible items	0.5	0.5	(0.0)
Foreign earnings taxed at different rates	(5.1)	(1.9)	(2.2)
Effect of enacted future tax rate reduction on deferred taxes	0.4	5.9	
Net change in valuation allowance for deferred tax assets	3.4	6.2	(0.3)
Income taxes on undistributed earnings of foreign subsidiaries	(1.1)	(3.9)	1.6
Other-net	1.4	(1.4)	0.2
Effective tax rates.	29.1%	40.0%	34.8%

The approximate effects of temporary differences and tax loss carryforwards that gave rise to deferred tax balances at March 31, 2013 and 2012 are as follows:

	Millions of yen		Thousands of U.S. dollars
	2013	2012	2013
Deferred tax assets:			
Intercompany profits	¥ 3,532	¥ 2,153	\$ 37,574
Termination and retirement benefits	22,109	23,287	235,202
Enterprise taxes	1,324	338	14,085
Compensated absences	2,158	2,084	22,957
Inventory valuation	2,699	2,356	28,713
Marketable securities and investments adjustments	· _	682	· _
Tangible and intangible assets	7,733	8,210	82,266
Accrued bonuses	5,257	4,901	55,926
Goodwill	995	1,332	10,585
Other temporary differences	6,565	8,023	69,841
Tax loss carryforwards	5,484	4,439	58,340
Total	57,856	57,805	615,489
Valuation allowance	(9,775)	(8,706)	(103,989)
Total	¥48,081	¥49,099	\$511,500
Deferred tax liabilities: Undistributed earnings of foreign subsidiaries	¥ 6,804	¥ 5,282	\$ 72,383
investments adjustments	716	_	7,617
Tangible and intangible assets	8,330	8,913	88,617
Goodwill	453	563	4,819
Other temporary differences	6,228	8,335	66,255
Total	¥22,531	¥23,093	\$239,691

The total valuation allowance increased ¥1,069 million (\$11,372 thousand) for the year ended March 31, 2013 and increased ¥2,600 million for the year ended March 31, 2012.

Based upon the level of historical taxable income and projections for future taxable income over the periods which the net deductible temporary differences are expected to reverse, management believes it is more likely than not that the Companies will realize the benefits of these deferred tax assets, net of existing valuation allowances at March 31, 2013 and 2012.

The Company and subsidiaries have tax loss carryforwards for each of the corporate and local taxes approximating ¥18,861 million (\$200,649 thousand) and ¥120 million (\$1,277 thousand), respectively, available to reduce future taxable income at March 31, 2013, which will expire substantially in the period from 2013 to 2033.

A reconciliation of the beginning and ending amount of unrecognized tax benefits at March 31 are as follows:

	Millions of yen		Thousands of U.S. dollars
_	2013	2012	2013
Balance at beginning of year Additions based on tax positions	¥55	¥54	\$585
related to the current year	3	1	32
Other	8	(O)	85
Balance at end of year	¥66	¥55	\$702

Total amount of unrecognized tax benefits, if recognized, would reduce the effective tax rate. The Japanese tax authority completed the audit of the consolidated income tax of the Company and the domestic subsidiaries which adopt the consolidated taxation system for the years before 2006. And the tax authorities completed the tax audit of the major foreign subsidiaries for the years before 2002. The Companies believe unrecognized tax benefits are reasonably estimated, but unrecognized tax benefits will change as a result of the tax examination. As of March 31, 2013, the Companies do not anticipate the material change of unrecognized tax benefits in the next 12 months. The Companies classify interest and penalties related to unrecognized tax benefits in income taxes

The Companies classify interest and penalties related to unrecognized tax benefits in income taxes in the consolidated statements of income. Accrued interest and penalties in the consolidated balance sheet as of March 31, 2013, and interest and penalties in the consolidated statement of income for the year ended March 31, 2013 are not material.

10. Foreign Operations

Net sales and Shareholders' equity of foreign subsidiaries are as follows:

		Thousands of U.S. dollars		
	2013	2012	2011	2013
Net sales	¥516,576	¥424,128	¥442,283	\$5,495,489
Shareholders' equity	229,797	193,862	164,621	2,444,649

11. Amounts per Share

A reconciliation of the basic and diluted earnings per share computation is as follows:

	Millions of yen			Thousands of U.S. dollars
	2013	2012	2011	2013
Net income	¥42,386	¥30,807	¥53,492	\$450,915
	N	lumbers of share	es	
	2013	2012	2011	
Average common shares outstanding Dilutive effect of stock options	211,076,326	213,415,642	214,629,452	
Diluted common shares outstanding	211,076,326	213,415,642	214,629,452	
		Yen		U.S. dollars
	2013	2012	2011	2013
Earnings per share:				
Basic	¥200.81	¥144.35	¥249.23	\$2.14
Diluted			249.23	

The diluted earnings per share for the year ended March 31, 2013 and 2012 is not stated, since there were no dilutive potential securities.

12. Comprehensive Income

The changes in the components of accumulated other comprehensive income (loss), including the before- and net-of-tax components of other comprehensive income (loss), are as follows:

		Millions of yen	
		2013	
	5.4	Tax	
	Before-Tax Amount	(Expense) or Benefit	Net-of-Tax Amount
Unrealized gains (losses) on securities:			
Unrealized holding gains arising during period Reclassification adjustment for	¥ 4,877	¥(1,560)	¥ 3,317

13. Commitments and Contingent Liabilities

Outstanding commitments at March 31, 2013 and 2012 for the purchase of property, plant, and equipment approximate ¥13,437 million (\$142,947 thousand) and ¥19,725 million, respectively. At March 31, 2013 and 2012, the Companies are contingently liable for trade accounts receivable discounted and transferred to banks of ¥340 million (\$3,617 thousand) and ¥166 million, respectively, which are accounted for as sales when discounted and transferred.

14. Suit

In November 2007, SynQor, Inc. ("SynQor") sued the Company and its wholly-owned subsidiaries, Murata Electronics North America, Inc. and Murata Power Solutions, Inc. (collectively "Murata") in the U.S. District Court for the Eastern District of Texas, Marshall Division ("EDTX") and alleged that certain of Murata's bus converters ("accused bus converters") infringe four U.S. patents owned by SynQor. In August 2011, EDTX issued the judgment that SynQor was awarded damages of about \$20,980 thousand against Murata.

Murata appealed to the United States Court of Appeals for the Federal Circuit ("CAFC") against the judgment, but in March 2013, CAFC affirmed the original judgment that was issued by EDTX in August 2011.

Murata recorded costs and interest associated with this suit of \$25,291 thousand for the year ended March 31, 2013.

Murata continues to consider any remaining legal options with respect to this judgment. In October 2010, SynQor sued Murata for damages against a shipment, which occurred after the restraining order (in January 2010) involving accused bus converters in EDTX. Murata does not record any costs or interest associated with this suit because any adverse claims are covered through an indemnification agreement with one of Murata's customers.

15. Fair Value Measurements

The Companies account for fair value measurements in accordance with ASC 820, "Fair Value Measurement". ASC 820 clarifies the definitions of fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements.

ASC 820 prioritizes the inputs used to measure fair value into the 3 broad levels, and classifies the fair value hierarchy.

- Level 1: Quoted prices for identical assets or liabilities in active markets
- Level 2: Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the assets or liabilities
- Level 3: Inputs that are unobservable for the assets or liabilities

Assets and liabilities measured at fair value on a recurring basis at March 31, 2013 are as follows:

	Millions of yen					
		Fair value measurements				
	Level 1	Level 2	Level 3	Total

Goodwill	\$(14,851)						

Above assets are measured by the unobservable inputs using the estimated future cash flows when recognizing impairment losses related to the assets during the year ended March 31, 2013; they are classified within Level 3.

Available-for-sale securities

Japanese government bonds and marketable equity securities are measured by the market approach using quoted prices in active markets; they are classified within Level 1. Governmental debt securities other than Japanese government bonds, private debt securities, and investment trusts are measured by the market approach using quoted prices for identical or similar assets in markets that are not active; they are classified within Level 2. Certain of private debt securities are measured by the income approach using inputs that are unobservable for the assets; they are classified within Level 3.

Derivatives

Forward exchange contracts and commodity swap contracts are measured by the market approach using marketable data of observable foreign exchange rates, swap rates, commodity prices, and others; they are classified within Level 2.

16. Financial Instruments and Concentration of Credit Risk

In the normal course of its business, the Companies invest in various financial assets and incur various financial liabilities.

Financial assets and liabilities

- (1) Cash, short-term investments, notes and accounts receivable, financial instruments which are included in other assets, short-term borrowings, notes and accounts payable and long-term debt Fair value approximates carrying amounts indicated in the balance sheets at March 31, 2013 and 2012.
- (2) Marketable securities and Investments Fair value is primarily based on quoted market prices or estimated using discounted cash flow analysis, based on the market interest rates currently available to the Companies for instruments with similar terms and maturities. The fair values of marketable securities and investments are presented in Note 3.

Derivatives

The Companies enter into forward exchange contracts in order to hedge the foreign currency risk, commodity swap contracts in order to hedge the material purchase price fluctuation risk caused by raw material market price fluctuations, and designated as cash flow hedges. In addition, the Companies have no forward exchange contracts and commodity swap contracts for trading and not designated as hedges. The exposure to credit risk is minimal since the counterparties are major financial institutions. The Companies do not anticipate nonperformance by any of the counterparties.

Forward exchange contracts

The Companies have forward exchange contracts against a percentage of various sales and supply transactions, accounts receivable and accounts payable, which transactions are expected to occur within the next 6 months.

Changes in the fair value of forward exchange contracts are reported in accumulated other comprehensive income (loss). These amounts are subsequently reclassified into earnings through foreign currency exchange gain (loss) in the same period that the hedged items affect earnings. Substantially all unrealized gains or losses on derivatives included in accumulated other comprehensive income (loss) at the end of the year are expected to be recognized in earnings within the next 4 months.

The Companies consider all hedges to be highly effective in offsetting the change of foreign currency, account receivable and account payable, sales and supply transaction in the future.

Commodity swap contracts

The Companies have commodity swap contracts against a percentage of material procurement which transactions are expected to occur within the next 6 months.

Changes in the fair value of commodity swap contracts are reported in accumulated other comprehensive income (loss). These amounts are subsequently reclassified into earnings through cost of sales in the same period that the hedged items affect earnings. The Companies do not recognize unrealized gains or losses on derivatives included in accumulated other comprehensive income (loss) at the end of the year.

The Companies consider the hedges to be highly effective in expecting to offset the changes of material purchase prices of hedged material procurements in the future.

Concentration of credit risk

A significant portion of the Companies' sales is dependent upon and concentrated in the electronics industry, especially telecommunications equipment. The Companies generally extend credit to their customers, therefore, collection of receivables could be affected by developments in the electronics industry. However, the Companies closely monitor extensions of credit and have never experienced significant credit losses.

17. Acquisition

There are no significant acquisitions for the year ended March 31, 2013.

Acquisitions for the year ended March 31, 2012 are mainly as follows.

(1) The acquisition of Renesas's High-power Amplifier Business

On March 1, 2012, the Company completed the acquisition of the high-power amplifier (PA) business of Renesas Electronics Corporation ("Renesas") and the Nagano Device Division of Renesas Eastern Japan Semiconductor, Inc. (Renesas's wholly-owned subsidiary, "Renesas Eastern Japan Semiconductor Nagano"). The total acquisition price was ¥10,704 million. Due to the acquisition, Renesas's PA business was newly consolidated as the PA Products Department Communication System Products Division Module Business Unit of the Company, and Renesas Eastern Japan Semiconductor Nagano was newly consolidated as Komoro Murata Manufacturing Co., Ltd.

The Companies already boast the world's largest share of the market for front-end modules (FEM) for mobile phones, and the strengthening of its PA technology with the new acquisition will enable it to advance the integration of analogue front ends and respond to the diverse needs of its customers.

The following table summarizes the estimated fair values of the assets acquired and liabilities assumed at the acquisition date.

	Millions of yen
Current assets	¥ 1,802
Property, plant and equipment	4,442
Intangible assets	2,264
Goodwill	3,479
Other non-current assets	1,062
Total assets acquired	13,049
Current liabilities	599
Long-term liabilities	1,746
Total liabilities assumed	2,345
Net assets acquired	¥10,704
=======================================	

Intangible assets acquired are mainly technologies of ¥1,752 million, which are subject to amortization. The Companies have estimated the amortization period for technologies to be 8 years. Goodwill recognized, which is assigned to Modules segment, is attributable primarily to expected synergies from combining operations of Renesas's PA Business and the Companies. Goodwill deductible for tax purposes resulting from the transaction is ¥2,983 million.

Acquisition-related cost of ¥113 million is included in selling, general and administrative expenses in the consolidated statements of income for the year ended March 31, 2012.

Net sales and operating loss of Renesas's PA Business that are included in the consolidated statements of income for the year ended March 31, 2012 are ¥623 million and ¥883 million, respectively.

The following table represents the unaudited pro forma results of operations of the Companies for the years ended March 31, 2011 and 2012, as if the acquisition of Renesas's PA Business had occurred on April 1, 2010 and 2011. The unaudited pro forma results of operations are presented for comparative purposes only and are not necessarily indicative of the results of operations that may occur in the future or that would have occurred had the acquisitions been in effect on the dates indicated.

	Millions of yen	
_	2012	2011
Net sales	¥599,156	¥647,511
Operating Income	39,421	74,385

(2) The acquisition of VTI Technologies Oy

On January 30, 2012, Murata Electronics Europe B.V. (the Company's wholly-owned subsidiary) completed the acquisition of VTI Technologies Oy ("VTI"). The total acquisition price was ¥18,533 million. Due to the acquisition, VTI and 6 other subsidiaries were newly consolidated.

VTI is a global leading player specialized in MEMS (Micro Electro Mechanical Systems) technology. In particular, VTI is the world's top manufacturer of low-G accelerometers for the automotive industry and cardiac rhythm management (CRM) systems. The Companies plan to strengthen and expand their business in the rapidly growing MEMS sensor market. While the Companies have a strong presence in the consumer applications market, VTI has focused on building a business base in automotive and medical applications. This acquisition will therefore enhance the Companies' product development and sales abilities.

The following table summarizes the estimated fair values of the assets acquired and liabilities assumed at the acquisition date.

	Millions of yen
Current assets	¥ 3,478
Property, plant and equipment	3,565
Intangible assets	9,329
Goodwill	6,337
Other non-current assets	2
Total assets acquired	22,711
Current liabilities	7,698
Long-term liabilities	692
Total liabilities assumed	8,390
Assumption of obligation (paid)	4,212
Net assets acquired	¥18,533

Intangible assets acquired are mainly technologies of ¥7,262 million, which are subject to amortization. The Companies have estimated the weighted average amortization period for technologies to be 7 years. Goodwill recognized, which is assigned to Components segment, is attributable primarily to expected synergies from combining operations of VTI and the Companies. Goodwill deductible for tax purposes resulting from the transaction was ¥1,700 million.

Acquisition-related cost of ¥502 million is included in selling, general and administrative expenses in the consolidated statements of income for the year ended March 31, 2012.

Only the balance sheet of VTI is consolidated at March 31, 2012. Therefore, the results of operations of VTI are not included in the consolidated statements of income for the year ended March 31, 2012.

The following table represents the unaudited pro forma results of operations of the Companies for the years ended March 31, 2011 and 2012, as if the acquisition of VTI had occurred on April 1, 2010 and 2011. The unaudited pro forma results of operations are presented for comparative purposes only and are not necessarily indicative of the results of operations that may occur in the future or that would have occurred had the acquisitions been in effect on the dates indicated.

Amortized intangible assets Software Technology Patents Other. Total	\$259,085 109,819 45,777 163,904 \$578,585	\$112,830 16,138 15,585 100,436 \$244,989	\$146,255 93,681 30,192 63,468 \$333,596		
Unamortized intangible assets			\$ 3,649		

Intangible assets other than goodwill acquired during the year ended March 31, 2013 total \pm 4,794 million (\$51,000 thousand) and primarily consist of software \pm 2,808 million (\$29,872 thousand). The weighted average useful life for software is 5.01 years.

Total amortization expenses of intangible assets during the years ended March 31, 2013 and 2012 amount to \pm 6,828 million (\$72,638 thousand) and \pm 5,216 million, respectively. The estimated amortization expenses for intangible assets for the next 5 years are as follows:

Years ending March 31	Millions of yen	Thousands of U.S. dollars
2014	¥6,322	\$67,255
2015	5,608	59,660
2016	4,135	43,989
2017	3,833	40,777
2018	3,400	36,170

The changes in the carrying amount of goodwill of each operating segment for the years ended March 31, 2013 and 2012 are as follows:

	Millions of yen				
-		2013			
_	Components	Modules	Total		
Balance at beginning year Acquisition cost	¥7,097 (760) 6,337	¥14,421 (9,017) 5,404	¥21,518 (9,777) 11,741		
Increase (decrease) in goodwill resulting from Goodwill acquired during year	890 _ 936	- (1,396) 594	890 (1,396) 1,530		
Balance at ending year Acquisition cost Accumulated impairment losses Net carrying amounts	8,923 (760) ¥8,163	15,015 (10,413) ¥ 4,602	23,938 (11,173) ¥12,765

Balance at ending year Acquisition cost	7,097 (760) ¥6,337	14,421 (9,017) ¥ 5,404	21,518 (9,777) ¥11,741		
	Th	ousands of U.S. doll	ars		
_		2013			
	Components	Modules	Total		
Balance at beginning year Acquisition cost Accumulated impairment losses Net carrying amounts	\$75,500 (8,085) 67,415	\$153,415 (95,926) 57,489	\$228,915 (104,011) 124,904		
Increase (decrease) in goodwill resulting from Goodwill acquired during yearImpairment losses	9,468 - 9,958	- (14,851) 6,319	9,468 (14,851) 16,277		
Balance at ending year Acquisition cost	94,926 (8,085) \$86,841	159,734 (110,777) \$ 48,957	254,660 (118,862) \$135,798		

As a result of the impairment test, the Companies recognized impairment loss of ¥1,396 million (\$14,851 thousand) on goodwill associated with Modules for the year ended March 31, 2013. The fair value declined due to a downturn in the power supplies business. The impairment loss is included in "Selling, general and administrative" of the consolidated statements of income. The fair value of goodwill is determined by considering the estimated future cash flows.

19. Segment Information

1) Operating segment information

The Companies mainly develop, manufacture, and sell electronic components and related products. Operating segments of the Companies are classified based on the nature of products and the Companies recognized Components segment, Modules segment, and Others.

Operating segment information for the years ended March 31, 2013, 2012, and 2011 is as follows:

	Millions of yen			Thousands of U.S. dollars
	2013	2012	2011	2013

To the Board of Directors and Shareholders of Murata Manufacturing Co., Ltd. Nagaokakyo-shi Kyoto, Japan

We have audited the accompanying consolidated financial statements of Murata Manufacturing Co., Ltd. and its subsidiaries (the "Company"), which comprise the consolidated balance sheets as of March 31, 2013 and 2012, and the related consolidated statements of income, comprehensive income, shareholders' equity, and cash flows for each of the three years in the period ended March 31, 2013, and the related notes to the consolidated financial statements, all expressed in Japanese yen.

Management's Responsibility for the Consolidated Financial Statements

Delatte Touche Tohmatsu LLC

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Murata Manufacturing Co., Ltd. and its subsidiaries as of March 31, 2013 and 2012, and the results of their operations and their cash flows for each of the three years in the period ended March 31, 2013, in accordance with accounting principles generally accepted in the United States of America.

Convenience Translation

Our audits also comprehended the translation of Japanese yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made in accordance with the basis stated in Note 2 to the consolidated financial statements. Such U.S. dollar amounts are presented solely for the convenience of readers outside of Japan.

- Independent Auditor's Report

Management's Report on Internal Control

NOTE TO READERS:

Following is an English translation of management's report on internal control over financial reporting filed under the Financial Instruments and Exchange Act of Japan. Readers should be aware that this report is presented merely as supplemental information.

Readers should be particularly aware of the differences between an assessment of internal control over financial reporting ("ICFR") under the Financial Instruments and Exchange Act ("ICFR under FIEA") and one conducted under the standards of the Public Company Accounting Oversight Board (United States) ("ICFR under PCAOB");

• In an assessment of ICFR under FIEA, there is detailed guidance on the scope of an assessment of ICFR, such as quantitative guidance on business location selection and/or account selection. In an assessment of ICFR under PCAOB, there is no such detailed guidance. Accordingly, regarding the scope of assessment of internal control over business processes, we selected locations and business units to be tested, and the companies whose combined sales and others volume reaches two thirds of total sales and others for the prior year on a consolidation basis were selected as "significant locations and/or business units."

(TRANSLATION)

MANAGEMENT'S REPORT ON INTERNAL CONTROL

1. Matters relating to the basic framework for internal control over financial reporting

Tsuneo Murata, President and Statutory Representative Director and Yoshitaka Fujita, Executive Deputy President and Statutory Representative Director are responsible for designing and operating effective internal control over financial reporting of our company (the "Company") and have designed and operated internal control over financial reporting of the consolidated financial statements in accordance with the basic framework for internal control set forth in "The Standards and Practice Standards for Management Assessment and Audit of Internal Control Over Financial Reporting" published by the Business Accounting Council.

The internal control is designed to achieve its objectives to the extent reasonable through the effective function and combination of its basic elements. Therefore, there is a possibility that misstatements may not be completely prevented or detected by internal control over financial reporting.

2. Matters relating to the scope of assessment, the basis date of assessment and the assessment procedures

Tsuneo Murata, President and Statutory Representative Director and Yoshitaka Fujita, Executive Deputy President and Statutory Representative Director performed the assessment of internal control over financial reporting as of March 31, 2013, which is the end of this fiscal year. The assessment was performed in accordance with assessment standards for internal control over financial reporting generally accepted in Japan.

In conducting this assessment, we evaluated internal controls which may have a material effect on our entire financial reporting on a consolidation basis ("entity-level controls") and based on the results of this assessment, we selected business processes to be tested. We analyzed these selected business processes, identified key controls that may have a material impact on the reliability of the Company's financial reporting, and assessed the design and operation of these key controls. These procedures have allowed us to evaluate the effectiveness of the internal controls of the Company.

We determined the required scope of assessment of internal control over financial reporting for the Company, as well as its consolidated subsidiaries and subsidiaries accounted for by the equity method, from the perspective of the materiality that may affect the reliability of their financial reporting. The procedures, methods and others to determine the scope are determined taking into account the materiality of quantitative and qualitative impacts on financial reporting. In light of the results of assessment of entity-level controls conducted for all locations and business units except for insignificant ones, we reasonably determined the scope of assessment of internal controls over business processes.

Regarding the scope of assessment of internal control over business processes, we selected locations and business units to be tested, and the companies whose combined sales and others volume reaches two thirds of total sales and others for the prior year on a consolidation basis were selected as "significant locations and/or business units". We included in the scope of assessment, at the selected significant locations and/or business units, business processes leading to sales, accounts receivable and inventories as significant accounts that may have a material impact on the business objectives of the Company. Further, in addition to selected significant locations and/or business units, we also selected individually for testing, as business processes having greater materiality, business processes relating to (i) greater likelihood of material misstatements and/or (ii) significant accounts involving estimates and the management's judgment and/or (iii) a business dealing with high-risk transactions, taking into account their impact on the financial reporting.

3. Matters relating to the results of the assessment

As a result of the assessment described above, as of the end of this fiscal year, we concluded that the Company's internal control over financial reporting of the consolidated financial statements was effectively maintained.

4. Additional matters Not applicable.

5. Particular matters Not applicable.

Tsuneo Murata President Statutory Representative Director Murata Manufacturing Co., Ltd.

The above represents a translation, for convenience only, of the original report issued in the Japanese language.

Independent Auditor's Report (filed under the Financial Instruments and Exchange Act of Japan)

NOTE TO READERS:

Following is an English translation of the Independent Auditor's Report filed under the Financial Instruments and Exchange Act of Japan. Readers should be aware that this report is presented merely as supplemental information.

Readers should be particularly aware of the differences between an audit of internal control over financial reporting ("ICFR") under the Financial Instruments and Exchange Act ("ICFR under FIEA") and one conducted under the standards of the Public Company Accounting Oversight Board (United States) ("ICFR under PCAOB");

- In an audit of ICFR under FIEA, the auditors express an opinion on management's report on ICFR, and do not express an opinion on the Company's ICFR directly. In an audit of ICFR under PCAOB, the auditors express an opinion on the Company's ICFR directly.
- In an audit of ICFR under FIEA, there is detailed guidance on the scope of an audit of ICFR, such as quantitative guidance on business location selection and/or account selection. In an audit of ICFR under PCAOB, there is no such detailed guidance. Accordingly, regarding the scope of assessment of internal control over business processes, the Company selected locations and business units to be tested, and the companies whose combined sales and others volume reaches two thirds of total sales and others for the prior year on a consolidation basis were selected as "significant locations and/or business units."

INDEPENDENT AUDITOR'S REPORT (filed under the Financial Instruments and Exchange Act of Japan)

June 27, 2013

To the Board of Directors of Murata Manufacturing Co., Ltd.

Deloitte Touche Tohmatsu LLC

Designated Unlimited Liability Partner, Engagement Partner, Certified Public Accountant: Taizo Ando

Designated Unlimited Liability Partner, Engagement Partner,

Certified Public Accountant: Kentaro Kurosawa

[Audit of Financial Statements]

Pursuant to the first paragraph of Article 193-2 of the Financial Instruments and Exchange Act, we have audited the consolidated financial statements included in the Financial Section, namely, the consolidated balance sheet of Murata Manufacturing Co., Ltd. (the "Company") and its consolidated subsidiaries as of March 31, 2013, and the related consolidated statements of income, comprehensive income, shareholders' equity and cash flows for the fiscal year from April 1, 2012 to March 31, 2013, and the related notes, and consolidated supplementary schedules.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America pursuant to the third paragraph of the Supplementary Provisions of the Cabinet Office Ordinance for Partial Amendment of the Regulations for Terminology, Forms and Preparation Methods of Consolidated Financial Statements (No.11 of the Cabinet Office Ordinance in 2002), and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Audit Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Murata Manufacturing Co., Ltd. and its consolidated subsidiaries as of March 31, 2013, and the results of their operations and their cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

[Audit of Internal Control]

Pursuant to the second paragraph of Article 193-2 of the Financial Instruments and Exchange Act, we have audited management's report on internal control over financial reporting of Murata Manufacturing Co., Ltd. as of March 31, 2013.

Management's Responsibility for the Report on Internal Control

Management is responsible for designing and operating effective internal control over financial reporting and for the preparation and fair

Independent Auditor's Report (filed under the Financial Instruments and Exchange Act of Japan)

presentation of its report on internal control in accordance with assessment standards for internal control over financial reporting generally accepted in Japan. There is a possibility that misstatements may not be completely prevented or detected by internal control over financial reporting.

Auditor's Responsibility

Our responsibility is to express an opinion on management's report on internal control based on our internal control audit. We conducted our internal control audit in accordance with auditing standards for internal control over financial reporting generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether management's report on internal control is free from material misstatement.

An internal control audit involves performing procedures to obtain audit evidence about the results of the assessment of internal control over financial reporting in management's report on internal control. The procedures selected depend on the auditor's judgment, including the significance of effects on reliability of financial reporting. An internal control audit includes examining representations on the scope, procedures and results of the assessment of internal control over financial reporting made by management, as well as evaluating the overall presentation of management's report on internal control.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, management's report on internal control over financial reporting referred to above, which represents that the internal control over financial reporting of Murata Manufacturing Co., Ltd. as of March 31, 2013 is effectively maintained, presents fairly, in all material respects, the results of the assessment of internal control over financial reporting in accordance with assessment standards for internal control over financial reporting generally accepted in Japan.

Interest

Our firm and the engagement partners do not have any interest in the Company for which disclosure is required under the provisions of the Certified Public Accountants Act.

The above represents a translation, for convenience only, of the original report issued in the Japanese language and "consolidated supplementary schedules" referred to in this report are not included in the attached financial documents.
